GAUHAR ALI

Cardiac Perfusion Technology | Healthcare | Clinical Research | AI & Emerging Technology

Hyderabad, Telangana, India | gauharali5550@gmail.com | linkedin.com/in/gauharali5550 | github.com/Golublip

PROFILE

B.Sc. (Hons) Cardiac Perfusion Technology undergraduate with interdisciplinary interests spanning cardiovascular healthcare, clinical research, artificial intelligence, software development, and emerging technologies. Building experience through independent software projects, scientific writing, innovation activities, and computational challenges. Interested in applying technology and research methods to real-world healthcare problems, particularly at the intersection of biomedical science and digital innovation.

EDUCATION

B.Sc. (Hons) Cardiac Perfusion Technology Nov 2025 - Expected 2029
MNR University, Telangana, India

Current CGPA: 8.0/10.0 (Semester I) | **Credits completed:** 30

Academic foundation: Anatomy; Physiology; Introduction to Healthcare Delivery System in India; Medical Terminology & Record Keeping; Healthcare Quality & Patient Safety.

Intermediate - BiPC (Biology, Physics, Chemistry) 2025
Telangana Board of Intermediate Education

Secondary School Certificate (SSC) 2021
Board of Secondary Education, Telangana | CGPA: 9.2/10

INTERNSHIPS & EXPERIENCE

Medical Writing Intern 2026
YuvaIntern

- Completed and submitted a six-week medical writing and clinical research task sequence.
- Covered medical literature review and synthesis, patient education material, regulatory document drafting, scientific editorial writing, clinical study report drafting, and reflective revision.

SELECTED PROJECTS

Memora AI - AI-Powered Personal Memory Vault
Independent Project | Flutter / Dart

- Designed and prototyped a personal knowledge and memory-management application for organizing documents, certificates, links, and other personal information.
- Explored integration of Google Gemini, on-device OCR, Supabase, SQLite, Riverpod, and speech-to-text within a Flutter/Dart project.

Quantum Circuit Optimization - Classiq Quantum Circuit Challenge 2026
Independent Participant

- Worked on a quantum phase-oracle optimization problem involving a 64 x 64 image and two 6-qubit registers.
- Experimentally reduced circuit depth from 3,539 to 410 during optimization work.

Clinical Research Portfolio 2026
Young Innovators Internship Challenge

- Developed a structured clinical research portfolio using AI-assisted tools as part of an innovation and internship challenge.

LEADERSHIP & INNOVATION

General Member, Institution's Innovation Council (IIC) 2026 - Present
MNR University

- Participate in the university innovation ecosystem focused on student ideas, entrepreneurship, IPR awareness, and innovation activities.

Student Coordinator - World Environment Day 2026 2026
Institution's Innovation Council, MNR University

- Coordinated and supported a plantation drive and environmental pledge activity and received a Certificate of Appreciation for contribution.

CPT Club Activity Coordinator - Cardio Amigo's 2026 - Present
MNR University

- Coordinate student-focused academic and engagement activities related to cardiac perfusion and allied health sciences.

ACADEMIC & SCIENTIFIC ENGAGEMENT

Delegate & Quiz Participant - CARDIO-WAVE 2K26, 2nd International Conference Oct 2026
Malla Reddy University, School of Allied and Healthcare Sciences

- Participated as a conference delegate and took part in the academic quiz held as part of the conference activities.

CERTIFICATIONS & TRAINING

- **Basic Life Support (BLS)** - certification/training
- **Advanced Cardiovascular Life Support (ACLS)** - certification/training
- **Gemini Certified University Student** - Google
- **GenAI Powered Data Analytics Job Simulation** - Tata Group / Forage
- **Data Science Job Simulation** - British Airways / Forage
- **Cybersecurity Analyst Job Simulation** - Tata / Forage

TECHNICAL SKILLS

Development: Dart, Flutter, Python | **Backend / Data:** Supabase, SQLite | **AI:** Google Gemini, prompt engineering, AI-assisted development, OCR | **Analytics:** data analytics, information retrieval | **Emerging Tech:** quantum computing and circuit optimization

HEALTHCARE & RESEARCH INTERESTS

Cardiovascular physiology and technology; cardiac perfusion and extracorporeal circulation; cardiopulmonary bypass; ECMO and extracorporeal life support; artificial organs and mechanical circulatory support; critical care technology; AI-enabled healthcare; clinical and biomedical research.
